# Email Marketing

ROSS CHARLES

## What it is

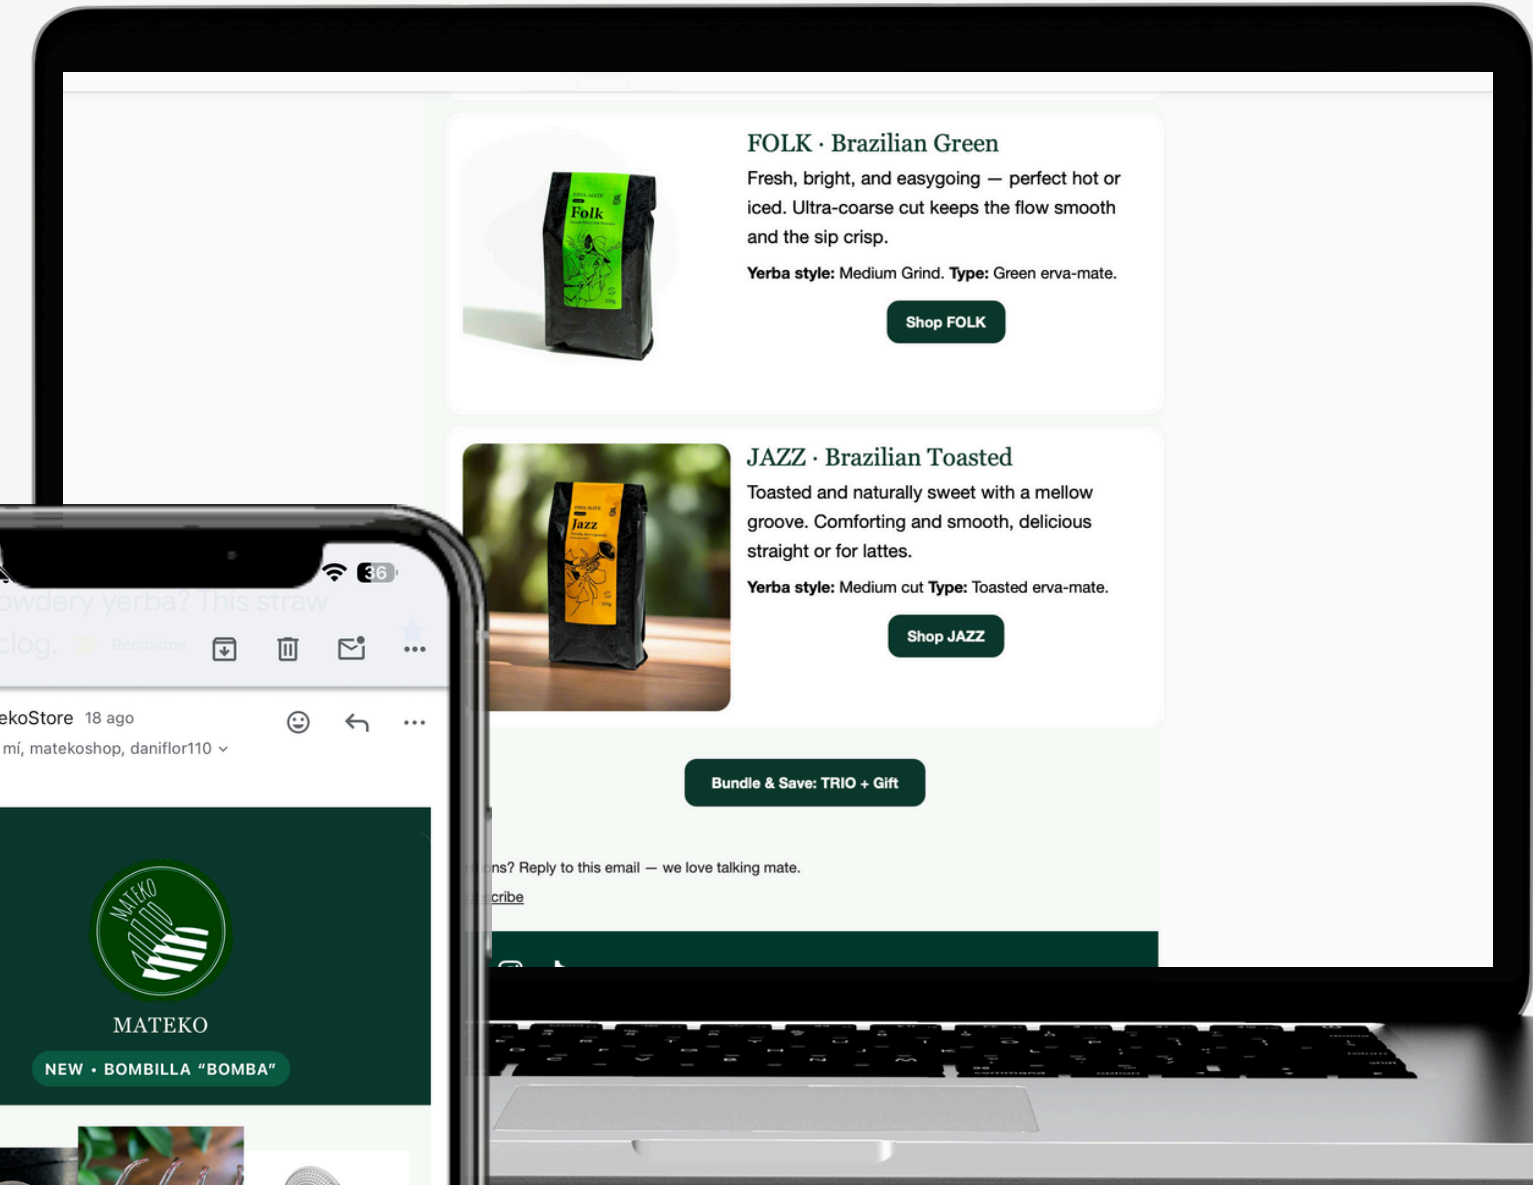

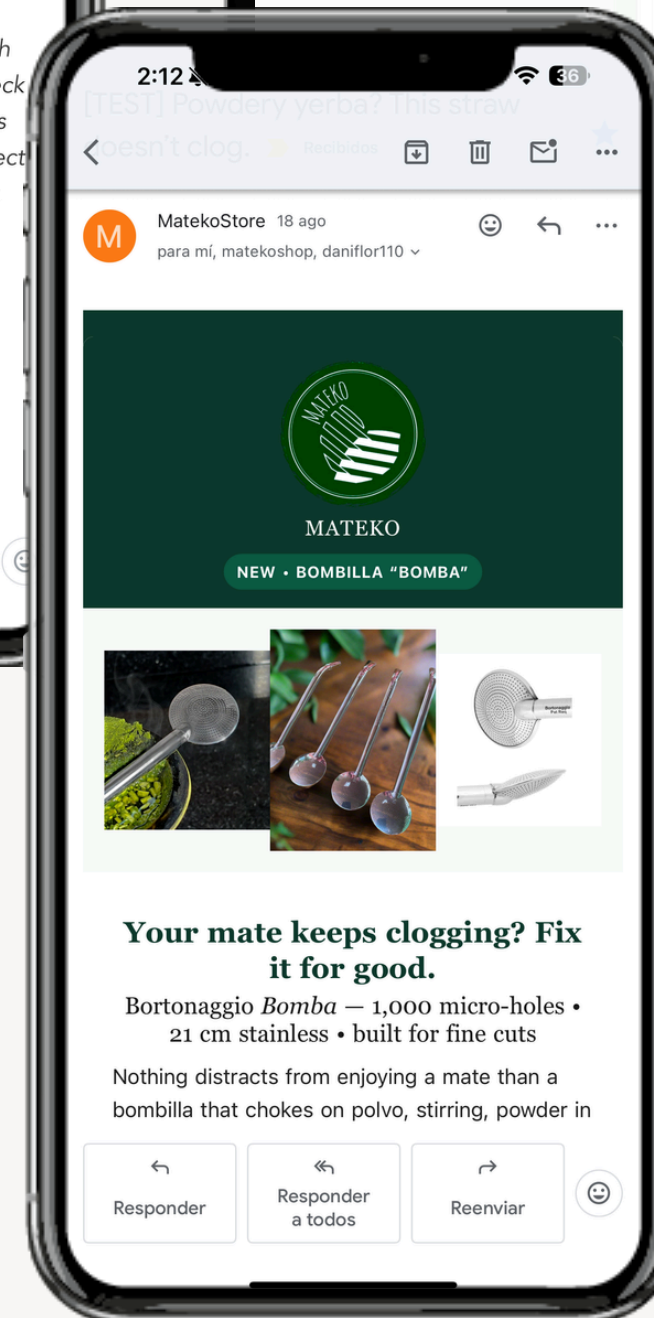

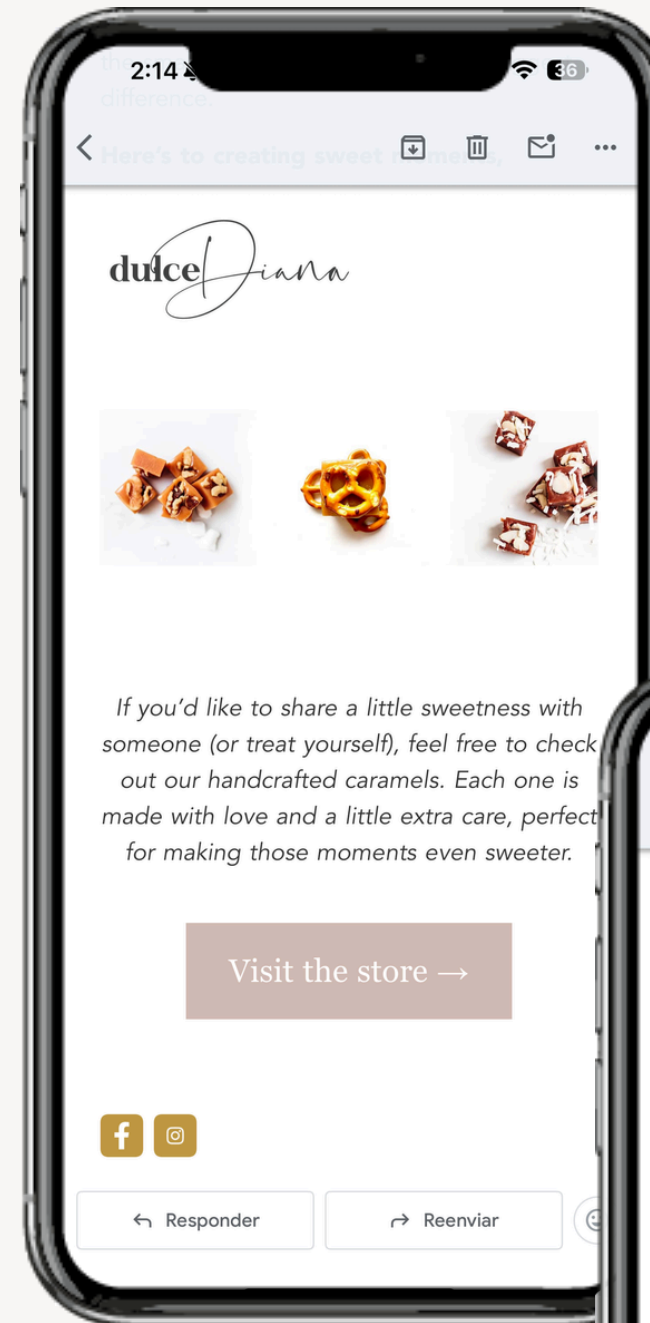

I design and write email campaigns that turn readers into buyers. From product launches to drip sequences, I create emails that sell without sounding salesy.

- 80% of businesses underuse email,
- A well-written campaign can turn a subscriber into a repeat customer.

- +157% traffic in 90 days → email + SEO strategy.

# Newsletter Design

ROSS CHARLES

## What it is

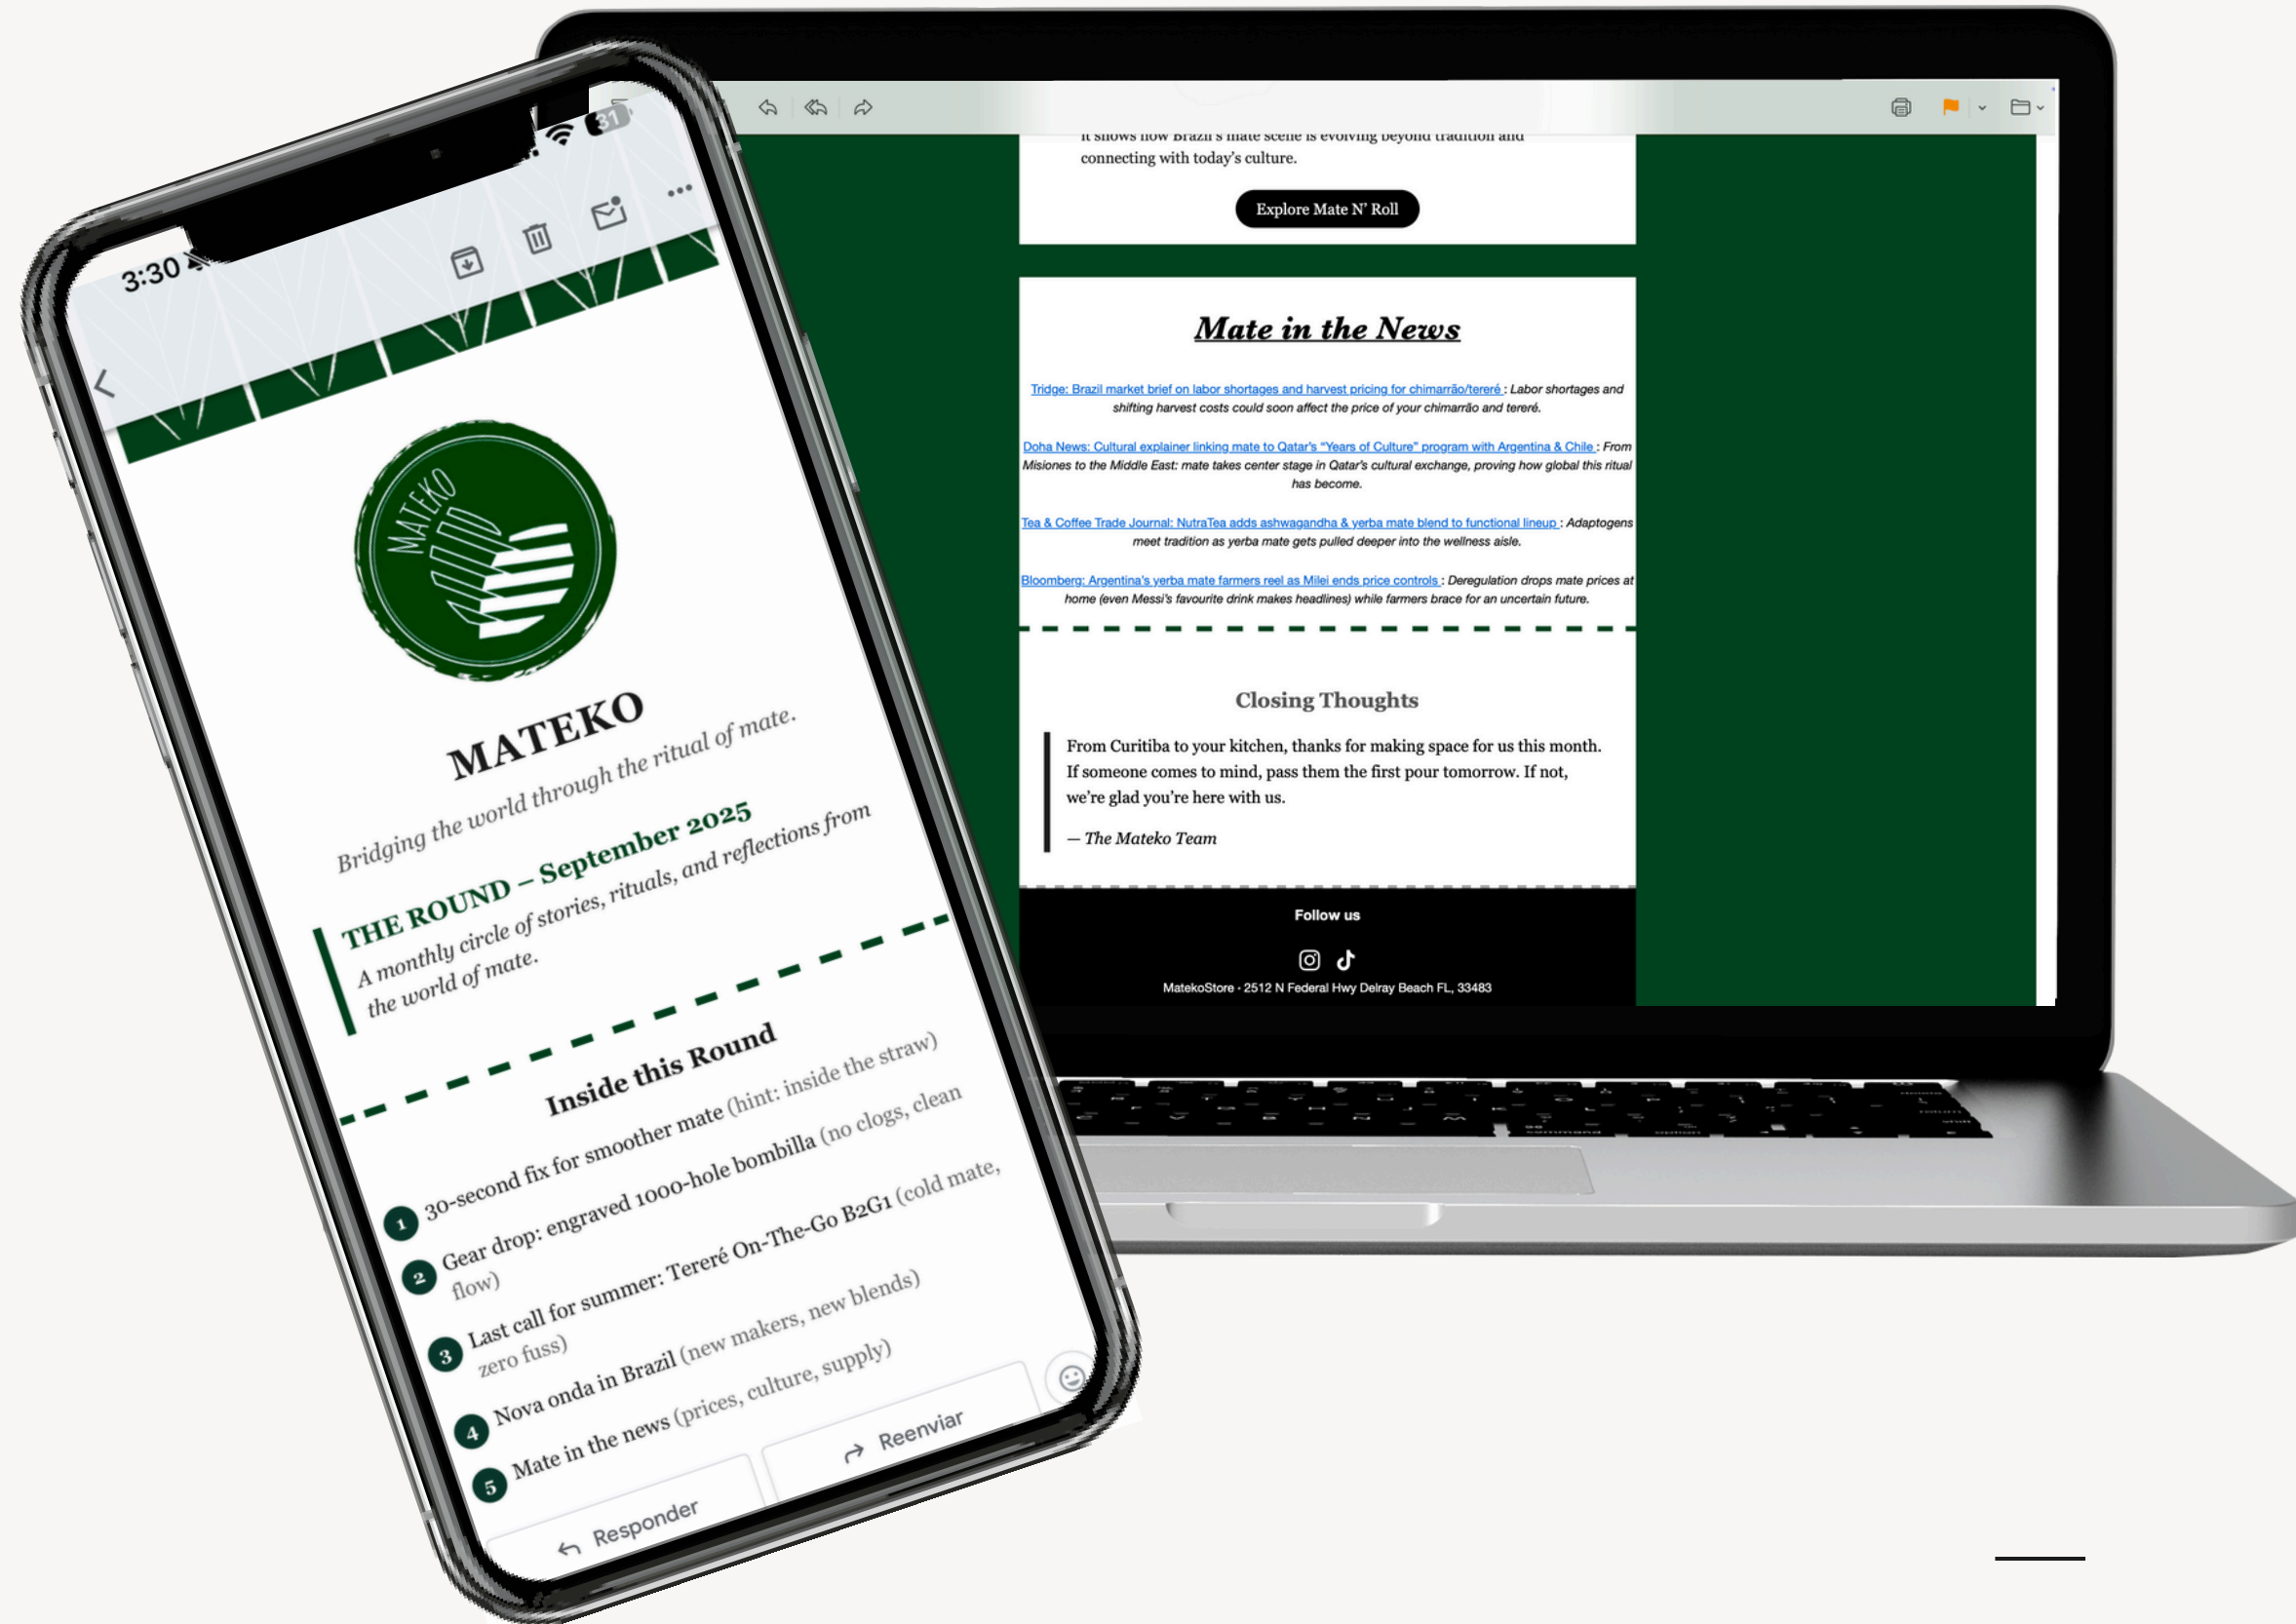

Branded newsletters that look professional, feel personal, and keep your audience coming back. I design and write campaigns that blend brand storytelling with clean, mobile-first layouts.

## Why it Matters

- Most brands underutilize newsletters, treating them as an afterthought.
- A strong newsletter builds trust and makes your brand feel consistent.
- It's not just about selling, it's about staying top of mind and creating loyalty.

## Proof

- Professional, branded newsletters sent consistently.
- Mobile-first designs that boosted engagement.
- Became a trusted touchpoint for the community.

# SEO Translations (Localization + Growth)

## What it is

I don't just translate, I localize. That means taking content written in English and rewriting it for LatAm markets so it sounds human, culturally accurate, and optimized for search engines.

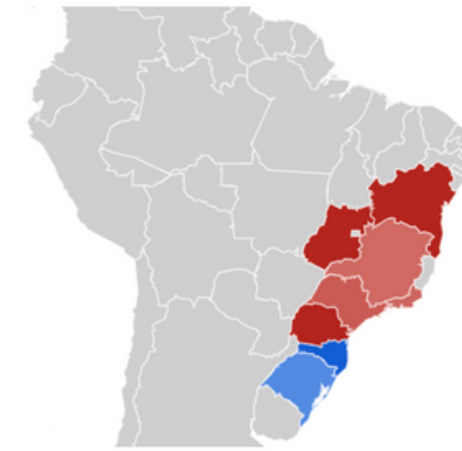

## Why it Matters

- Even in the age of AI, machine translation still breaks trust with robotic tone and subtle errors.
- It might sound okay, but the SEO is wrong — critical keywords get lost, so you don't rank where your buyers are searching.
- A proper SEO translation means your site shows up in Google and feels authentic to real people.

## Proof

- Rewrote content originally translated through ChatGPT.
- Fixed tone, accuracy, and SEO keywords and the copy became natural and trustworthy.
- Helped the brand tap into new audiences instead of turning them away.

## What it is

I write thought-leadership posts, articles, and updates in your voice — whether you're a founder, brand, or industry professional. My job is to take your raw ideas and turn them into content that resonates, builds authority, and attracts opportunities.

## Why it Matters

- Leaders often have expertise but no time (or clarity) to share it.
- Ghostwriting translates that expertise into content people actually read and share.
- Authority online doesn't just get likes, it brings leads, speaking invites, and credibility.
- Ghostwriting turns their insights into consistent, high-impact content.
- A strong personal brand attracts inbound leads, opportunities, and credibility that money alone can't buy.

## A Comprehensive Guide To Renting in Buenos Aires

📅 October 28, 2024   👤 Ross

Welcome to Buenos Aires, where the weather is extreme, the lines at the bank are endless, and the rental market? Oh, it's truly *exceptional*. Exceptional in the way that waiting for a bus in the rain feels special—because nothing here is simple, fast, or what it seems.

With a little help (and maybe a few deep breaths), it's not *that* bad. You've probably already heard about the amazing lifestyle, the delicious food, and the friendly locals, but nobody warned you about the true rite of passage: finding a place to live. So, buckle up, because navigating this rental market is going to be your real Argentine test—but don't worry, you'll survive...probably 😊

## YERBA MATE INDUSTRY UPDATE

Brazil's harvest is under pressure.

Hands are short in Brazil's fields. Picking crews are thin, costs are climbing, and chimarrão/tereré may feel it next.

We're watching so drinkers and growers aren't surprised.
